Introduction

Aspiring Data Analyst skilled in SQL, Python, Excel, and Power BI with hands-on experience in data cleaning, visualization, dashboard creation, and business data analysis through academic and self-driven projects. Strong analytical and problem-solving abilities with interest in business intelligence and data-driven decision-making.

Experience

LearnNex
AI/ML Intern

May 2024 – July 2024
Remote

- Analyzed and preprocessed 10,000+ records using Python and Pandas for predictive modeling.
- Improved model accuracy by 35% through data cleaning and feature optimization.
- Reduced preprocessing and reporting time by 25% using automated workflows with TensorFlow and Scikit-learn.

Bluestocks
Web Developer Intern

June 2025 – July 2025
Remote

- Collaborated with teams to develop responsive web applications and dashboards.
- Improved UI performance by 20% and reduced page loading time by 15%.
- Managed and organized structured application data with 95% accuracy.

Education

VIT Bhopal University
Bachelor of Technology in Computer Science Engineering

Oct. 2023 – May 2027
Bhopal, Madhya Pradesh

Relevant Coursework

- Database Management
 - Systems
 - Statistics for Data
- Analysis
 - Data Mining
- Machine Learning

Projects

Power BI Sales Dashboard | *Power BI, SQL, Excel*

- Designed an interactive dashboard to analyze sales trends and KPIs.
- Created charts and filters for better business reporting and insights.
- Automated reporting workflows to reduce manual analysis efforts.

Customer Churn Analysis | *Python, Excel, Data Visualization*

- Analyzed customer datasets to identify churn behavior patterns.
- Created trend visualizations and reports using Python and Excel.
- Generated business insights to support retention strategies.

Technical Skills

Languages: Python, SQL, C++
Data Analysis: Excel, Power BI, Data Cleaning, Data Visualization
Libraries: Pandas, NumPy, Matplotlib
Databases: MySQL, PostgreSQL
Tools: GitHub, Jupyter Notebook, VS Code
Concepts: KPI Reporting, Dashboarding, ETL Basics, Trend Analysis

Extracurricular

Data Analytics & Technical Activities

2024 –Present

- Completed certifications in Data Analysis, Responsible AI, and Generative AI fundamentals.
- Built multiple academic and self-driven data analytics projects using Python, SQL, and Power BI.
- Solved DSA problems using Python and C++.
